Report 2nd

FICE OF THE SUPERINTENDENT

November 23, 1960

Memorandum

To: Director

From: Superintendent, Yellowstone National Park

Subject: Monthly Report for October 1960

General

Weather. October was a beautiful month with warm days and cool nights. Precipitation was below normal. The maximum temperature at headquarters was 72 degrees on October 4, 5, and 6. Minimum temperature was 11 degrees on the 30th. Precipitation was only .57 inches. There was snowfall in the higher altitudes. The Passes in the Park were closed by snow October 9, 13, 29, 30 and 31.

Increase or Decrease in Travel. Travelers to the Park during October showed an increase over the same month a year ago. Visitors totaled 28,756 as against 14,635 for 1959.

October 13 was the last day of Entrance Station operation. As the result of a travel survey it was recommended that the figure of 3.70 average per car be used beginning January 1, 1961.

Special Visitors. District Park Ranger, James A. Randall, Lassen Volcanic National Park visited Yellowstone October 8-11.

Miss Mildred Fricson, formerly a Ranger Naturalist in Yellowstone and now with the Fish and Wildlife Service in Seattle, visited the Park a few days. Chief Park Naturalist McIntyre accompanied her to the Firehole and Hebgen areas to review the earthquake changes.

Foreign Visitors. Dr. K. G. Seeliger of the German Embassy in Washington and Mr. U. Von Rhamm of the German Consulate in New York visited Yellowstone on October 22. Messrs. Seeliger and Von Rhamm had planned to spend only the day in Yellowstone and then go on to Grand Teton National Park. They were so fortunate in seeing many specie of wildlife that they decided to stay overnight at Old Faithful.

OFFICE OF THE SUPERINTENDENT

Inspections. Parke W. Soule, Regional Finance Officer, Region Two, was in the Park October 24 and 25 to discuss administrative matters and methods of payment of the Montana Power contract.

Auditors Weber and Corrick from Washington Office were in the Park October 24 and 25 to study the Land-Air contract, bills, percentage basis payments, liquidated damages, etc. They will advise of their findings.

On October 10, Mr. Lendvalh, U.S.G.S. geologist, inspected the rock structure of the canyon walls in the vicinity of Uncle Tom's Trail. As a result of the inspection, it was decided that a qualified structural geologist be retained and utilized during the layout of the trail so as to make certain that sections of the rock ledges are not overloaded in the reconstruction of the trail.

Special Activities. The 1960 Region Two Superintendents' Conference of all park superintendents, assistant superintendents, and key officials from the Regional and Washington Offices convened at Lake, October 2 through 7.

The conference group was divided into two teams known as the John Colters and the Jim Bridgers, with a Team Captain and a Team Recorder. The primary theme of the conference was national park wilderness preservation and use. Conferees spent three days and nights at Trail Creek in the Southeast Arm of the Lake, touring the most important points in the Trail Creek area and the proposed Yellowstone Lake zoning areas.

From Trail Creek one group took a horseback trip to Trapper Creek and return and the other group took a boat trip to the delta of the Yellowstone River, South Arm, Flat Mountain Arm and Eagle Bay. On the following day, the groups reversed the trips. There were discussions on trails, wilderness campgrounds, patrols and protection. At the end of the conference the captains wrote a report on their observations.

On the evening of October 6 the conferees and wives were entertained at a social hour at Superintendent Garrison's residence, with the Park concessioners as hosts. Dinner was served in the Mammoth Employees Dining Hall.

On October 9, Associate Director Eivind T. Scoyen entertained members of the community by showing pictures he had taken while in Europe this summer. One trip was to Denmark and Norway and the other was to Poland and Czechoslovakia. Conservation was the theme of Mr. Scoyen's talk.

Emergency Services. All Emergencies serviced in the Jackson was contained on October 14.

The Jackson Lamy was open every day a week during October.

Property and Ownership. A collecting permit was issued to Mr. Jackson L. Harrison, Jackson, to beg and release publication notice.

during the spring and summer of 1961 near South Entrance. Dr. Armitage has been doing research on marmots in Yellowstone for many years.

Dr. Vincent J. Schaefer, Schenectady, New York, has requested permission for himself and a party of seven to spend about ten days in the Park in February to conduct scientific studies of atmospheric phenomena in the Firehole Basins.

Sapphire Geyser was very active during the month. Some eruptions were only 10 minutes apart; and some were many hours apart. Several of the eruptions which were above average in magnitude were photographed by Park Naturalist Marler.

Grizzly Bear Studies. Dr. Frank Craighead who is conducting the Grizzly Bear studies left the Park October 30.

Concessioners. The Yellowstone Park Company closed their Gardiner Shops on October 28 for the winter. They expect to reopen the first Monday in April.'

Hamilton Stores, Inc. office at West Yellowstone closed October 24. Trevor S. Povah, President, departed for their winter headquarters in Santa Monica that day. The warehouse will remain open all winter.

Old Faithful campers cabins and Hamilton's Store and service station at Old Faithful closed October 31. All concessioner operations in the Park were closed with the exception of General Store and service station in Mammoth.

Superintendent Garrison and his staff attended the Concessioners monthly meeting October 12 in the Superintendent's office. A review of the season's business and highlights of summer's activities featured the discussions, including bear incidents, Bridge Bay and final closing dates were approved. Plans for next year's operations were discussed.

Maintenance. The roads in the new Lewis Lake campground have been completed except for an oil palliative treatment. Approximately 85 per cent of the water system has been completed. It is contemplated this new campground will be ready for use next summer. The utility systems were closed for the winter. Several condemned buildings, including 14 cabins used for seasonal personnel quarters and two CCC storage sheds in the Old Faithful area were demolished.

Roads. The Red Lodge-Cooke City road was closed to public travel on October 15 when the barricades were put in place.

During the spring and summer of 1961 over 50 in Hudson, Dr. Hartman has been going backwards in order to fulfillment for many years.

Dr. Thomas J. Donnelly, Schenectady, New York, for respectful presidential for Donald Hall a point of view to stand down for now in the area in Hudson by Hudson Schenectady, Albany or secondarily placement in the Mohawk Valley.

Tangible Copper was very solid during the month. Some activities were only 30 minutes apart, and some were very busy apart. Several of the activities dates were more flexible in Hudson than planned by Area Hospitalist Service.

Spiritual Poor Inventory. Dr. Frank Lockwood who is conducting the Spiritually Poor studies left the Park Center 22.

Congratulations. The Hallowmas Fair Company closed their Greater Hudson on October 29 for the Hudson. They hopes to reopen the first Monday in April.

Meeting Notice. Inc. office in Poor Hallowmas closed October 14, Viewer Sr. Dates, President, departed for Hall Valley Sanctuary to Santa Monica that day. The workroom will remain open all winter.

Old Political Company Office and Hamilton's Area can continue meeting at Old Political closed December 22. All representative committees in the Park area closed with the exception of Journal Poor and service stations in Hudson.

Superintendent Certificate and Job Study attended the Commissioner monthly meeting October 12 in the Superintendent's office. A review of the annual business and legislative of owner's meeting discussed the discussions, including Poor Inventory, Policy for and Final closing dates were approved. Plans for Poor Poor's operations were discussed.

Maintenance. The water in the new Lands Park Company water system completed except for an oil pollutive treatment. Approximately 40 per cent of the water system has been completed. It is anticipated this new Company will be ready for new Poor Poor. The utility systems were closed for the winter. Several conditions, including 15 engine were for annual preventive maintenance and two old storage sheds in the Old Political area were demolished.

Sewer. The new Lodge-Hudson City road was closed to public travel on October 15 when the barricades were put in place.

All other Park roads were kept plowed throughout the month. The snow plowing crews will keep the road open to Lake and West Thumb, and West Yellowstone until about November 15 to enable the contractor's crews to work until that date.

Snow stakes throughout the Park were set for the winter.

Final inspection of the Gardiner River slide project was held October 28, with recommendation for its acceptance. Bureau of Public Roads Engineers Hunt, Yarrington and Bohman attended this review in connection with other road projects.

Protection and Ranger Service. Tree maintenance work needed in the Mammoth area was reviewed by Park personnel and a representative of the Davey Tree Expert Company on the 3rd. Report of costs for this work were submitted on the 10th.

Law Enforcement. There were six cases taken before U. S. Commissioner James W. Brown during October. Five cases involved traffic violations and one concerned hunting in the Gallatin area. Fines totaled $165, with $25 suspended.

Insect and Tree Disease. Forestry Aid John N. Reeves was in Missoula at the U. S. Forest Service office, October 3-7 reporting on final activities of the Blister Rust Control activities in the Park.

A survey was made on the 24th of the Washburn area to determine the status of Mountain Pine Beetle infestation in white bark pine. Infestation appears to be chronic.

Forest Fire Protection. The fire reported in last month's report on Pitchstone Plateau which was discovered September 29 was declared out October 6.

Wildlife and Fish Cultural Activities. BEAR. Bear incidents reported through October 1960 were 68 Personal Injury and 358 for Property Damage.

Drs. John and Frank Craighead have almost completed their work for this year. A total of 77 grizzlies have been color-marked to date. Experiments with radio equipment for tracking will be done during the winter and next summer before actual tracking can be done.

BEAVER. Two beaver were observed working October 2 in the Middle Creek, in the South District.

BISON. On the 8th, 119 bison were seen in the Lamar Valley.

All going fine and we are very pleased [illegible] the work. The [illegible] will help the [illegible] to [illegible] that [illegible] satisfaction and [illegible] it to [illegible] the [illegible] leader's [illegible] to [illegible] [illegible].

[illegible] [illegible] [illegible] [illegible] [illegible] [illegible].

[illegible] [illegible] [illegible] [illegible] [illegible] [

ELK. Requests have been received for 915 elk carcasses from 15 Indian schools and tribes.

Elk are beginning to move down to lower elevations and have been observed on Swan Lake flat.

The elk trap at Blacktail Deer Creek has been taken down. The few elk enticed into this trap did not justify its maintenance.

PRONGHORN. A small band of Pronghorn stayed in the Lamar area during the month. A group of 17 Antelope bucks were observed near headquarters on October 20-22.

Contracts. None.

[illegible]. Attempts have been made to [illegible] [illegible] [illegible] [illegible] [illegible] and [illegible].

[illegible] can anticipate to see [illegible] to have [illegible] and [illegible] [illegible] [illegible] [illegible] [illegible].

The [illegible] [illegible] [illegible] [illegible] [illegible]

Design and Construction

Plans, Maps, and Surveys: The collection of data for 1962 projects was completed and all of the WODC crew left the Park by mid-October except those supervising projects under construction. Brady Engineering finished their surveys also.

New Construction: Final inspections for construction work completed were held for the following projects during October:

Repair of Masonry Retaining Walls, McLaughlin Construction Company

North Entrance Slide Stabilization, Nelson Brothers Construction Company

Construction of Comfort Stations, Dormitory, Messhall, Seasonal Apartments, Teller Construction Company

Water, Sewer, Roads at Cabin Area B, Canyon, Studer Construction Company

Water System and Connection, Concessioner Facilities, West Entrance, Northwest Construction Company

Utilities Extension, Mammoth, Utilities Service Company

Production of aggregate for Grant Village roads, Studer Construction Company

Although the contract work on the above has been completed, most of the projects still have uncompleted work which will be accomplished next spring.

Projects which were almost completed at the time winter stopped work the middle of the month were the construction of circulation roads at Grant Village by Studer, utility construction at Madison Junction by Nelson, campground and roads construction at Madison Junction by Burggraf.

At Bridge Bay, the dredging by Shellmaker has progressed satisfactorily and is expected to be completed before Thanksgiving. The bridge is ready for the final concrete work and the concrete ramp for boat launching added by change order has been poured.

Taggert Construction Company is still working on a limited basis at Madison Junction and expects to produce most of the aggregate before shutting down. We expect to have the new road and bridge in service by the advent of the heavy travel season.

The plans and specifications for the [illegible] treaters [illegible] were sent to contractors [illegible] [illegible] approval [illegible].

May Labor [illegible] [illegible] the two Lewis [illegible] and are [illegible] [illegible] [illegible] [illegible]. The Pacific [illegible] completed [illegible] [illegible] [illegible]
